

# Cambridgeshire & Peterborough North Alliance Integrated Neighbourhoods Implementation Plan

December 2018

## Scope and Geography

The North Alliance can broadly be sub-divided into three areas;

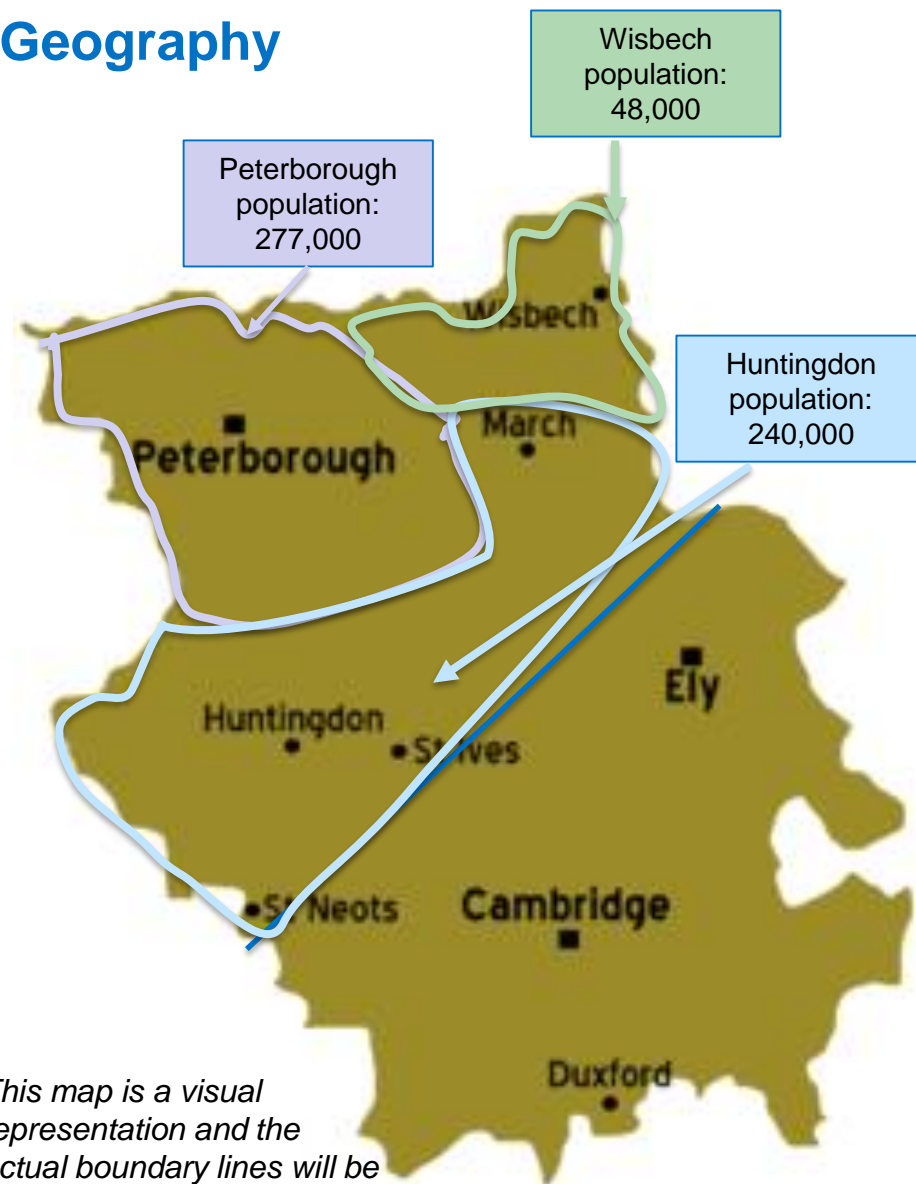

- Greater Peterborough
- Huntingdon
- Wisbech

Based on the populations of these areas, the North is likely to have up to 12 Integrated Neighbourhoods.

The approach for defining the geography for the Integrated Neighbourhoods is currently being explored and is considering:

- Current service provision
- Population health data
- Population economics
- Knowledge of natural communities

The North Alliance aims to agree the geography of the first 3 Neighbourhoods by January 2019.

*This map is a visual representation and the actual boundary lines will be confirmed when the neighbourhood coverage is agreed*

## Key Milestones: Overview

2018/2019

2019/2020

2020/2021

Formation of  
Integrated  
Neighbourhoods  
Programme

Greater Peterborough  
Accelerator Sites (3)

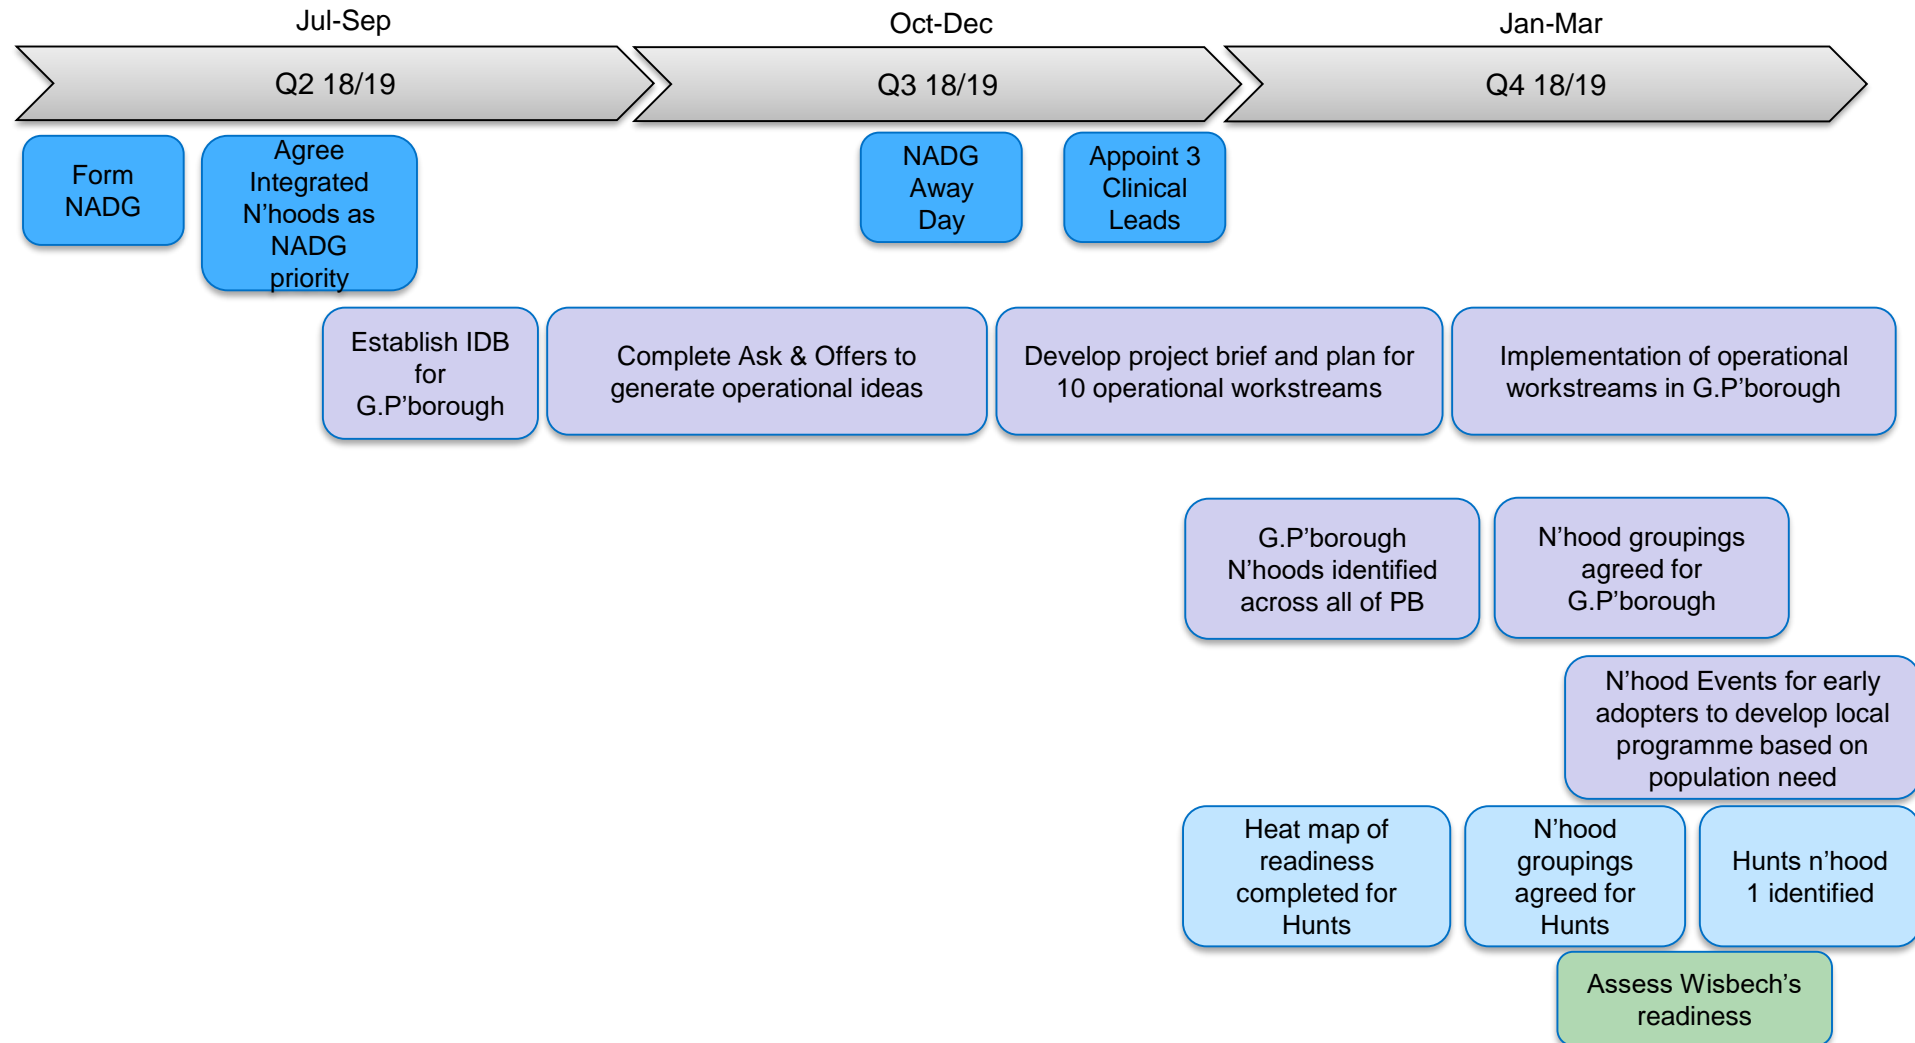

Greater Peterborough remaining  
coverage (3)

Huntingdonshire  
Accelerator Site (1)

Huntingdonshire remaining coverage (3)

Wisbech

## Key Milestones: 2018/2019

## Key Milestones for North Alliance Integrated Neighbourhoods

### 2019/2020

Apr-Jun

Jul-Sep

Oct-Dec

Jan-Mar

Q1 19/20

Q2 19/20

Q3 19/20

Q4 19/20

Implementation of operational workstreams in G.P'borough

N'hood Leadership meetings established for G.P'borough (3)

Implementation of local work programme for G.P'borough N'hood early adopter site (3). This will be decided by the Integrated Neighbourhoods, based on population health data and community insight.

Remaining G.P'borough N'hoods identified

N'hood Events for rest of PB sites to develop local programme based on population need

Establish IDB for Hunts

Review current operational workstreams and complete ask & offers to generate local ideas

Develop Hunts programme plan for operational workstreams

Implementation of operational workstreams in Hunts

N'hood Event for Hunts 1 to develop local programme based on population need

N'hood Leadership meetings established for Hunts 1

Implementation of local work programme for Hunts 1. This will be decided by the Integrated Neighbourhood, based on population health data and community insight.

Link Wisbech with GPN IDB

N'hood Event for Wisbech to develop local programme based on population need

Implementation of local work programme for Wisbech This will be decided by the Integrated Neighbourhood, based on population health data and community insight.

## Key Milestones for North Alliance Integrated Neighbourhoods

### 2020/21

N'hood Leadership meetings established for G.P'borough 4,5,6,7

Implementation of local work programme for G.P'borough N'hood 4,5,6,7. This will be decided by the Integrated Neighbourhoods, based on population health data and community insight.

Hunts N'hood 2,3,4 identified

N'hood Events for Hunts N'hood 2,3,4 to develop local programme based on population need

N'hood Leadership meetings established for Hunts 2,3,4

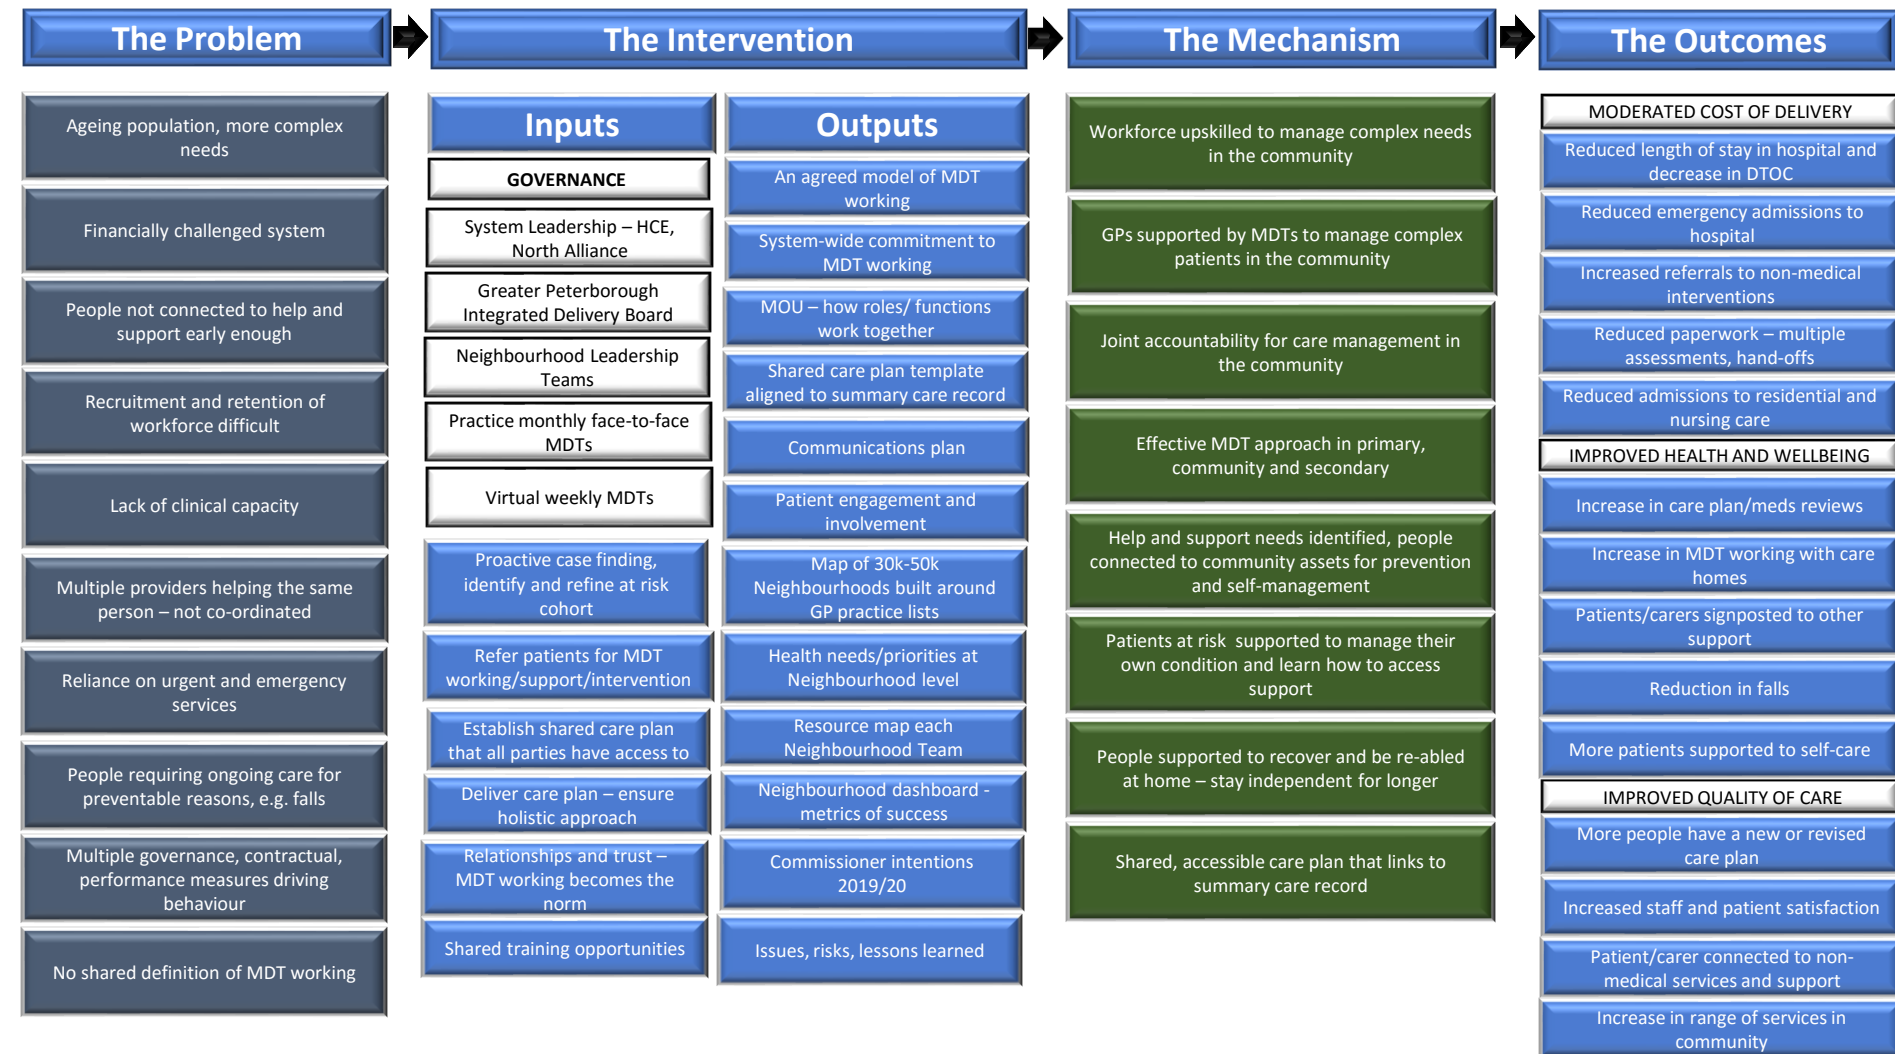

Implementation of local work programme for Hunts N'hood 2,3,4. This will be decided by the Integrated Neighbourhoods, based on population health data and community insight.

N'hood Leadership meetings established for Wisbech

Implementation of local work programme for Wisbech. This will be decided by the Integrated Neighbourhood, based on population health data and community insight.

# Fit for the Future

Working together to keep people well

## Greater Peterborough Integrated Teams Logic Model (DRAFT)

# Approach & Methodology for Identifying the Primary Care Networks

Groupings are based on geography and population demographics, supported by Public Health (SK), considering:

- Deprivation / Ethnicity / Disease Prevalence / Activity Data

Primary Care Network	Population <18 years <sup>1</sup>	% population <18 years <sup>1</sup>	Population >= 75 years <sup>1</sup>	% 18 to 74	Deprivation			Risk Factors Smoking Prevalence <sup>6</sup>	Under 75 Mortality <sup>4</sup>	% population in good or very good health <sup>5</sup>	Broad measure of health				Emergency Admission Rate per 100,000 patients <sup>9</sup>	Elective Admission Rate per 100,000 patients <sup>9</sup>	CHD Prevalence <sup>7</sup>	Principal diseases COPD Prevalence <sup>7</sup>	Respiratory premature mortality <sup>4</sup>	CVD premature Mortality <sup>4</sup>
					IMD score <sup>1</sup>	IMD Rank in Greater Peterborough <sup>3</sup>	% non white British <sup>2</sup>				Life expectancy - male <sup>4</sup>	Life expectancy - female <sup>4</sup>	% population >= 75 years <sup>1</sup>

## Key Next Steps

- Recruitment of Clinical Leads (1 x Peterborough, 1 x Hunts, 1 x Wisbech)
- Confirm the 3 accelerator Neighbourhoods for Greater Peterborough
- Be able to narrate the compelling story; how the groupings emerged
- Assess readiness of Integrated Neighbourhoods in Huntingdonshire and associated timetable
- Create project brief for 10 operational workstreams for Greater Peterborough and assess scale, feasibility and potential impact (timeframe dependant on resources)
- Continue to strengthen the links with the prevention work as this aligns well
- Strengthen the links to the Think Communities programme
